

# Annexure to the Second Status Report

ANNEXURE TO INTRODUCTION .....	3
ANNEXURES TO CHAPTER 2: FISCAL MANAGEMENT IN PUNJAB .....	13
ANNEXURE TO CHAPTER 3: BASIC CIVIC SERVICES AND CIVIC REGULATORY SERVICES.....	25
ANNEXURES TO CHAPTER 4: RECOMMENDATIONS ON SOCIAL SECURITY AND WELFARE PROGRAMME.....	27
ANNEXURES TO CHAPTER 5: POLICE STATION REFORMS.....	59
ANNEXURES TO CHAPTER 6: INSTITUTIONAL FRAMEWORK FOR DELIVERY OF SERVICES .....	64
ANNEXURES TO CHAPTER 7: COMBATING FEMALE FOETICIDE.....	73

**Annexure 1**

**TERMS OF REFERENCE**

- (i) This Commission has been set up to improve the welfare of the disadvantaged, marginalized and deprived sections in Punjab and achieve good Governance based on high ethical standards. The motivation for the Commission comes from the fact that the present system of governance is not optimally suited to the challenges of unequal access of social programs and skewed distribution of benefits of the various economic programs based on gender, caste and class. The mandate of the Commission is to suggest changes in the processes, procedures, rules regulations and design of the public services and in respect of the social development programs to improve the delivery of services, ensure dignified access of these services to the disadvantaged, marginalized; and deprived sections of society including women.
  
  - (ii) The Commission will identify the vital schemes, programs and services of the Government of Punjab that affect the welfare of people and document in detail the existing procedures, rules regulations and the design of public service and social development programs. Based on 'best practices' in other States and other welfare-oriented countries, the Commission will identify the changes that ought to be introduced.
  
  - (iii) The Commission will work out the details of a sustainable model of governance with inbuilt provisions for consultations with the target group flexibility to the implementing agencies; customizing programs according to local needs; citizen- centric decision-making;; and ensuring accessible and hassle-free delivery of programs and services to the disadvantaged, marginalized and deprived sections.
2. The following will be the Mandate of the Commission:
- (1) Social and economic development of the economically and socially marginalized sections of the society and issues of dignity, livelihood and income generation has been the stated thrust of various government programmes. There is sufficient evidence to suggest that the benefits of these programmes

are not fully availed by the target groups due to various constraints including faulty programmes design, caste, gender and class-based exclusion, adverse selection, corruption etc. The Commission shall look into the ways and means to ensure and improve the impact of these programmes on the target groups.

- (2) The Commission will focus on improving the access of deprived and marginalized in various social and economic programs; in provisioning of basic civic services; in provisioning of social security schemes.
- (3) The Commission will also consider modalities of making access of citizens's to programs, services and schemes harassment and corruption-free by suggesting changes in processes, procedures, rules regulations and design of the public services and social development and welfare programs.
- (4) The Commission shall not only focus on delivery of civic and social services but also on procedures, norms and rules of civic utilities.
- (5) Improving the access to programs, services and schemes for the socially deprived groups will require addressing challenges of drug addiction, female sex de-selection, caste based social assertions and other social ills that have afflicted Punjab society.
- (6) To ensure corruption and harassment-free delivery of services, the Commission will suggest changes in the institutional arrangements, especially institutions that relate with the participation of grass root actors, and improvements in the grievance redressal mechanisms to ensure accountability of service providers. Use of e-governance will be suggested where required. Rights, needs and concerns of the poor and marginalized populations will be kept upfront in making these recommendations.
- (7) Improvement in social access is not possible without strengthening rights and access to law and order services; the Commission will therefore make suggestions for strengthening citizenship rights in provisioning and use of police services.

3. The Commission will be generally guided in its deliberations by the following:-

- (a) Evolve measures that reduce delays and ensure promptness in delivery of services and to suggest progressive interventions to make administration more accessible and outcome oriented. These interventions will include: process simplification; flexibility to implementing agencies; delivery systems customized to local needs; strengthening citizen centric decision making ;p facilitating accessibility of user groups to decision-making processes; augmenting facilities for submission and redressal of grievances and providing replies
  - (b) thereto; setting up consultative mechanisms for receiving suggestions, ensuring freedom of information; and, encouraging transparency.
  - (c) Optimization of existing human and financial resources and evolving equity based, sustainable models for public agencies to deliver services.
  - (d) Reducing the overlap of responsibilities of public agencies in provisioning of services, schemes and programmes and making suggestions that improve and streamline coordination between various public agencies.
  - (e) Examining the role of the third tier of government to improve implementation, execution and supervision of public programmes, schemes and services. In making these suggestions the capacity of PRIs and ULBs will be kept in mind.
  - (f) Evolve measures that help overcome the limitations of various deprived and marginalized groups in accessing public services and programs. The could be achieved by integrating rights based governance with processes- transparency and community participation in public services and programmes.
4. The Commission shall be assisted by Task Groups. The sectors, schemes, programs and services for which task groups will be formed will be decided by the Chairperson and members of the Commission. Task Group will make detailed recommendations

indicating changes required in procedures, rules regulations specifically indicating the modalities of bringing about the suggested change and the resources and other inputs required for implementation. The recommendations of the task groups will be approved by the Commission. The task group will also oversee and follow up on implementation of the accepted recommendations.

## Annexure 2

### Terms of References (ToR) Task Group – Access to Social Development

#### **Building Perspectives Creating Capacities**

Economic development, social development and environmental protection are interdependent and mutually reinforcing components of sustainable development and is the framework for our efforts to achieve a higher quality of life for all people. Equitable social development that recognizes empowering the poor to utilize environmental resources sustainably is a necessary foundation for sustainable development. We also recognize that broad-based and sustained economic growth in the context of sustainable development is necessary to sustain social development and social justice. We believe that democracy, transparent and accountable governance and administration in all sectors of society are indispensable foundations for the realization of social and people-centred sustainable development and that social development is central to the needs and aspirations of people and to the responsibilities of Governments and all sectors of civil society. We acknowledge that it is the primary responsibility of States to attain these goals. We also acknowledge that these goals cannot be achieved by States alone. All regional institutions and local authorities, and all actors of civil society need to positively contribute their own share of efforts and resources in order to reduce inequalities among people and narrow the gap between deprived and the well off in a state level effort to reduce social tensions, and to create greater social and economic stability and security.

#### **Why Social Development Task Force and what is (components of) Social Development?**

The formation of the Commission and the task forces is an acknowledgement that there is an urgent need to address profound social problems, inequities in health and education and challenges of social exclusion that affect the State. It is the task of this task force to address both their underlying and structural **causes** and their stressing **consequences** in order to reduce uncertainty and insecurity in the life of people. The task force believes that it is the commitment of the state to foster stable, safe and just societies as the overriding objectives of development. We are witnessing throughout the Indian states the expansion of prosperity for some, unfortunately accompanied by an expansion of unspeakable poverty for others. There has been progress in some areas of social and economic development: Life expectancy, literacy and primary education, and access to basic health care, including family planning, have increased and average infant mortality has been reduced in many parts of the state. Yet we recognize that

far too many people, particularly women and children, are vulnerable to stress and deprivation. Poverty, unemployment and social disintegration too often result in isolation, marginalization and violence. The insecurity that many people, in particular vulnerable people, face about the future - their own and their children's - is intensifying. The goals and objectives of social development require continuous efforts to reduce and eliminate major sources of social distress and instability for the family and for society.

**Key Concerns:** Do people need state support for social development, is wasteful expenditure or unutilized resources the major ill facing the social sector, how capacity of public actors be enhanced to achieve better outcomes from existing policies, what modifications do we need in existing policies of social development, is support of central government in the social sector a support or an impediment for achieving better outcomes in the social sector; is there a need for new programs and if so what kind and finally what is the interconnection between institutions, suppliers and policy to achieve objectives of social development. To answer these questions the task force will endeavor to do the following.

### **State of Social Development Report on Punjab**

The task force will bring out a report on the current state of Social Development in Punjab. The task force will use the available expertise in the state and outside to fulfill this task. The State of Social Development Report on Punjab will provide the basis, in times to come, for any policy making on social development. The report will deal with the methodological challenge of relating the achievements and challenges on the social front with the programs of social development on one hand and the overall direction of development on the other. In specific terms this will involve the following –

- a) The report will identify essential parameters that capture social development and will present a temporal picture of Punjab at the district level. Comparison will be done with other states of what has been achieved in Punjab on the social front and what is missing.
- b) Profile the socially vulnerable and marginalised households in the state in terms of occupation and economic activities, educational level and social background using the NSSO surveys.
- c) Provide a design evaluation of some of the important social programs of the state from the vantage point of social equity and access. The inherent framework of social programs and the implicit assumptions made in the instruments chosen to achieve social development need to be deconstructed so that appropriate lessons can be learnt for future design of social programs.

- d) Provide the details of social sector funding and the role of Central government and State government in contributing towards social development expenditures of the state. A review will be done of social development expenditure looking at both major and minor heads. The review will look at sources of funds, quantum, time trends, and where they are utilized and draw out appropriate lessons for better utilization of funds.
- e) Provide a perspective on the demand side or of the beneficiaries of the social programs. This will be done by reporting some household studies using qualitative and ethnographic research methods that identify the vulnerable households, find out which social program they have used or not used, their perception and the role of these programs in improving their vulnerable existence. The focus here is on capturing the outcome. This will involve doing a qualitative evaluation of the beneficiaries.
- f) Provide a summary of the quantitative evaluation of various social programs that are available in various state government reviews, university research and reviews by independent researchers. Best practices in India for various dimensions of social development will also be documented here.
- g) Provide a supply side perspective by interviewing key actors like health workers, teachers, social welfare department employees and others.

**Terms of References (ToR)**

**Task Group - Basic Civic and Regulatory Services**

1. **Civic Services** – delivery issues (access, quality, systems of delivery of various services).
  - (a) **Civic Infrastructure**

Water and sanitation - billing payment, fault attendance, complaint systems, information systems, charters for standard of services
  - (b) **Regulatory**

**Restrictive** – permission/approvals for construction, licenses etc.
  - (c) **Economic Service** – licenses for business and informal trade etc.
2. **Need based services** – required by citizens for services not necessarily related to the agency responsible for delivery (Birth & Death Certificate, Domicile etc.).

Priority areas.

Issue of BPL Cards/categorization of BPL families (to enable card holders to avail of concession from different agencies).

Issue of certificate for physically challenged/SC/other such categories.
3. **Sector Specific Services** – Agriculture, Industries, Drugs (licenses and prevention of food adulteration – public goods as well as client oriented.
4. **Commons'/Public Goods**

There is need to keep in view that delivery of public goods through services such as quality of drugs, pure water – are as important as individually directed services.

**Terms of Reference (ToR)**

**Task Group - Social Security and Welfare**

1. To rationalise the various educational schemes by grouping them clientele wise so as to maximise their impact on the beneficiary family and enhance qualitative monitoring.
2. To study and analyse various housing and related sanitation and drinking water schemes meant for S/Cs and other BPL families being administered by various Departments and synergize them for effective implementation both in rural and urban areas.
3. To study the system of soft credit line to the Marginalized Communities from the Central, State and other Financial Institutions and ensure creation of sustainable assets and infrastructure for long term employment generation for the marginalized people.
4. To analyse reasons for the non-availment of the hundred percent un-tied grants by the State Government available from Government of India under the Special central Assistance (SCA) for the Welfare Programmes for the SCs.
5. To suggest measures for effective implementation of the Scheduled Caste Sub-Plan (SCSP) with a view to ensuring wider coverage of the target group families. Higher percentage of the SCSP achievement would attract higher allocations from the Government of India.
6. To streamline the mechanisms for ensuring hassle-free disbursement of the social security pensions and other cash based schemes to ensure least pilferage.

**Services covered**

- a) The social security services - pensions and other recurring grants for the old, widows etc.
- b) **Welfare Services**  
  
Scholarship/financial/assistance in kind. This could be provided individually or through institutions such as old age homes etc.
- c) Economic Services - not generally covered.

**Terms of References (ToR)**

**Task group - Police Reforms and Access to Police Services**

1. To identify the measures in implementing the various services in a time bound manner.
2. To suggest changes in the procedures, rules and regulations to simplify the service delivery mechanism.
3. To suggest measures for dignified access to various services to be provided to the weaker sections of the society, women, children, SCs/STs, etc.
4. To suggest measures for effective implementation of grievance redressal mechanism and to ensure the accountability of service providers.
5. To suggest the measures to tackle the issues like drug menace, female infanticide, immigration, etc.
6. To suggest changes in the present institutional arrangements to eliminate harassment and to ensure corruption free delivery of services.

**Terms of References (ToR)**

**Task Group - Institutional Framework for Citizen-Centric Governance**

1. To examine the existing modes for citizen-administration interface;
2. To examine the existing procedures followed in citizen-administration interface specifically in terms of complexity, time and cost.
3. To study the mindset of employees towards citizens.
4. To identify inadequacies of existing practices in the field of citizen-administration interface;
5. To document new initiatives/best practices undertaken across the globe for making governance citizen-centric;
6. To suggest strategies for adapting the new initiatives/best practices for making governance citizen-centric in the State.
7. To suggest simple, cost effective and less time consuming administrative procedures.
8. To suggest strategies for changing the mind set of the employees by making them more sensitive to the citizens.
9. To suggest capacity enhancing measures for preparing the human resources in consonance with citizen-centric governance reforms in the State.
10. To recommend vibrant and robust institutional framework including the involvement of civil society, citizenry and other stakeholders for making governance accountable, responsive and citizen-friendly.

**Graph 12: Composition of Non Plan Revenue Expenditure**

**Graph 14: Per Capita Revenue Receipts**

Annexure A

**PUNJAB GOVERNMENT**

**NEW FORMAT OF APPLICATION FOR INCOME CERTIFICATE**

(Common for all categories)

1. Full Name of the applicant \_\_\_\_\_.
2. Name of the Father/Husband/Guardian \_\_\_\_\_.
3. Age of the Applicant \_\_\_\_\_.
4. Number of family Members \_\_\_\_\_.
5. Complete address of the Applicant \_\_\_\_\_.
6. Purpose for which income certificate is applied for \_\_\_\_\_.
7. Details of immovable properties of family.
  - a. Lands \_\_\_\_\_.  
Village \_\_\_\_\_, Extent \_\_\_\_\_.  
  
❖ Annual Income from Land \_\_\_\_\_.
  - b. Details of house owned.
  - c. Details of Shop(s) owned.
  - d. Details of annual income from house and shop mentioned above \_\_\_\_\_.
  - e. Details of other income if any.
8. Transport :- Tractor/ One/Two wheeler, owned if any \_\_\_\_\_.
9. Annual family income from employment \_\_\_\_\_ Annual family income from business \_\_\_\_\_.
10. Total Annual income of the family \* from all sources \_\_\_\_\_.
11. Per capita annual income of the family. \_\_\_\_\_.
- ❖ Rs. 10000/- for irrigated & Rs. 5000/- for unirrigated land – per acre.
- ❖ Definition of family: Head of family/ husband or wife, unmarried children up to the age of 21 years.

(contd. on next page)

**Declaration**

I hereby declare that the details furnished above are true and correct at the best of my knowledge and belief. In the event that any of the details are proved to be false I am liable for action under Sec. 199 & 200 of the Indian Penal Code.

**Signature of the Applicant**

**Supporting Declarations by Citizens (1)**

This is to certify that I personally know – who has applied for income certificate and is residing at address given. I hereby declare that the details by him/her above are true and correct to the best of my knowledge and belief. In the event that any of the details are proved to be false I am liable for action under Sec. 199 & 200 of the Indian Penal Code.

**Signature of the Citizen**

**Identified by**

**Name & Address**

**Supporting Declarations by Citizens (2)**

This is to certify that I personally know- who has applied for income certificate and is residing at address given. I hereby declare that the details by him/her above are true and correct to the best of my knowledge and belief. In the event that any of the details are proved to be false I am liable for action under Sec. 199 & 200 of the Indian Penal Code.

**ANNEXURE –D****A Note on BPL Criteria**

**(Prepared by the Department of Planning, Punjab Government)**

1. **BPL survey for 9<sup>th</sup> Plan (1997-2002) (Rural)** – Annual family income to be less than Rs.20,000 and the families should not have more than 2 hectares of land or TV or Fridge. The number of rural BPL families was 6.5 lakh during the 9<sup>th</sup> Plan. The survey based on these criteria was again carried out in 2002 and the total number of 3.87 lakh families were identified. This figure was in force till September, 2006.
2. **BPL for 10<sup>th</sup> Plan (2002-07) (Rural)** – This survey is based on the degree of deprivation in respect of 13 para-meters (with scores from 0-4) – land holding, type of house, clothing, food security, sanitation, consumer durables, literacy status, labour force, means of livelihood, status of children, type of indebtedness, reasons for migrations etc. The Planning Commission fixed an upper limit of 3.26 lakh for rural BPL families on the basis of simple survey. Accordingly families having less than 15 marks out of maximum 52 marks have been classified as BPL and their number works out to 3.18 lakh. The survey was carried out in 2002 and thereafter but could not be finalised due to stay by the Supreme Court. The stay was vacated in February, 2006 and this survey was finalised and adopted in September, 2006. This survey would form the basis for benefits under Gol Schemes. The state government is free to adopt any criteria/survey for the state level scheme.
3. **10<sup>th</sup> Plan BPL Survey for Urban Families** – This survey was based on degree of deprivation in respect of 7 para meters – roof, floor, water, sanitation, education level, type of employment & status of children in a house. A total of 1.25 lakh upper families were identified as BPL in urban area in 2004. It is under implementation since then.
4. **Kerala Government** – Most of the state governments followed the 13 and 7 para meters definition for identifying the BPL families during the current 10<sup>th</sup> Plan. Kerala Government is one of the few state governments which has formulated its own criteria. There are 9 para meters and if the family does not have access to 4 or more para meters than it is classified as BPL. The 9 para meters for urban areas are – No land/Less than 5 cents of land, No house/dilapidated house, No sanitation latrine, Family without colour TV, No regular employed person in the family, No access to safe drinking water, Women headed

household/Presence of widow divorce, socially disadvantaged groups SC/ST & Mentally retarded/disabled member in the family. The 9 para meters for rural are – No land/Less than 5 cents of land, No house/dilapidated house, No sanitation latrine, Family with an illiterate adult member, No regular employed person in the family, No access to safe drinking water, Women headed household/Presence of widow divorcee, Socially disadvantaged groups SC/ST & Mentally retarded/disabled member in the family.

5. **Haryana Government** – The BPL survey was carried out as per the GoI guidelines in Haryana and it was based on 13 para meters. The Government has recently dis-carded it and adopted new 5 para-meters based survey. The 5 points are – land, house, household goods, literacy level and means of livelihood/standard of living. The survey is to be carried out by Ex-servicemen who would be paid Rs.4 per family.
6. **Maharashtra Government** – The Maharashtra Government has also decided to conduct fresh BPL survey. About 46 lakh BPL families were identified on the basis of 13 point criteria. There was lot of resentment and a total of 10.56 lakh appeals were filled against the survey. In view of this they have decided to discard the survey and conduct fresh survey.
7. **International Scene-** Income of less than \$1 per day per head (purchasing power parity) is defined as extreme poverty. As per these estimates about 45% of Indian Population is extremely poor. If the daily income per head is \$2 then the family is described as poor and about 80% of India Population is poor by this criteria.

The poverty line in United States is fixed in terms of annual family income. Originally in 1969 the requirements of family in terms of food were worked out with reference to 1963 prices. It was found that a family of 4 would require \$1033 per annum for meeting the food requirement. The study revealed that families in that income spent nearly 1/3<sup>rd</sup> income on food and therefore the poverty line for family of 4 was fixed as \$3099 per annum. The poverty line is revised annually after taking inflation into account. For the year 2006 it was \$20650 per annum per family (comprising 4 members).

8. **Income based poverty line in India/Punjab-** The poverty line was originally fixed in terms of income/food requirements in 1978. It was stipulated that the calorie standard for a typical individual in rural areas were 2400 calorie and was 2100 calories in urban areas. Then the cost of the grains (about 650 gms.) that fulfil this normative standard was calculated. This cost was the poverty line. In 1978, it was Rs.61.60 per person per month for rural areas and

Rs.71.30 for urban areas. Since then the Planning Commission calculates the poverty line every year adjusting for inflation. The poverty line in recent years is as follows:-

(Rs. Per month per head)

	India		Punjab	
Year	Rural	Urban	Rural	Urban
2000-01	328	454	371.25	400.18
2005-06	368	560	415.80	492.22

These figures are per month per head. This income is bare minimum to support the food requirements and does not provide much for the other basic essential items like health, education etc. That is why some times the poverty lines have been described as starvation lines.

9. **Fixing Annual Family Income for poverty line in Punjab** – The state government was considering fixing poverty line in terms of annual family during the last 2-3 years. The reason was that the 13 para meters survey was started in 2002 but it could not be finalised due to Supreme Court stay. The Supreme Court vacated the stay on 14/2/2006 and it was decided thereafter that BPL survey on 13 para meters be finalised. It has accordingly been finalised and details are enclosed herewith.

#### 9.1 Basic Figures – Population and SC Families

(In lakh)

	Total		SC Families	
	Population	Families (Average Family Size)	Population	Families
Rural	160.96	26.59 (6.05)	53.18	8.77 (33%)
Urban	82.62	15.52 (5.32)	17.10	3.10 (20%)
Total	243.58	42.11 (5.78)	70.28	11.87 (28%)

**Poverty Line for the State:**

In 2005-06, the poverty line for the state as mentioned above was Rs.415 per month per head and Rs.493 per month per head in rural and urban areas respectively. This works out to Rs.30,473 per year per family for rural and urban areas.

The previous Vice Chairman, Punjab State Planning Board, Dr.S.S. Johl recommended annual family income for BPL families as Rs.45,000. It was worked out on the basis of minimum wages i.e. Rs.101 (fixed by Punjab Government for unskilled labour) for 25 days employment in a month for 1.5 earning member per family.

Guru Nanak Dev University has recommended annual family income of Rs.50,000 in rural and Rs.60,000 in urban areas.

Jaya Mehta in Alternative Economics Survey recommended Rs.775 in rural areas and Rs.717 in urban areas per month per head for the Punjab State. These figures would give annual family income of Rs.56,000 in rural areas and Rs.45,773 in urban areas.

The Centre for Policy Alternative has worked out some detailed and scientific calculation for the poverty line. As per their calculation a person would require on an average every month: Food-Rs.573, Health-Rs.30, Clothing-Rs.17, Energy Conservation-Rs.55 and Misc.-Rs.164 = Total-Rs.840. The poverty line should not be less than Rs. 840 per month per head. The average family size is Rs.5.78 in the state and the annual family income thereafter works out to Rs.58,262.

Director Agriculture recommends that one acre of land does not fetch more than Rs.8,000 annual income. We have earlier fixed a cut off of 5 acres of land for BPL families. This would work out to Rs.40,000 per annum.

Existing annual family income for BPL families after adjusting for inflation works out to Rs.30,000 in the year 2006. The recommendations vary from Rs.45,000 to Rs.60,000 as explained above. It would therefore be proper if the annual family income for BPL families is fixed around Rs.40,000.

Table 4

## SC Population &amp; District-wise no. of beneficiaries under 'Shagun' Scheme

Districts	SC Population (2001)	% of SC Population	No. of Beneficiaries (2008-09 )	% of no. of Beneficiaries	No. of beneficiaries 2009-10 (31.10.09)	%age of No. of Beneficiaries

The scheme is being implemented through the Language Deptt. Punjab. Duration of course is one year i.e. from August to July in a year. No. of seats are 230 (15 in each district and 20 seats at Chandigarh centre)	6.90	0.96

**Annexure-H****Special Coaching classes for Up-gradation of Academic Competence for SC Students of Punjab****Introduction**

To Promote academic qualitiveness among the students belonging to the Scheduled Caste community in the State of Punjab, formulation of a special scheme targetting the students is the need of the hour.

**Identification of Students**

There are 141 blocks in the State. In each Block, a group of 120 students would be selected from the 9<sup>th</sup> class purely on merit basis. The selected group be impact merit classes in three groups comprising of 40 students in each group. All the three groups be divided for merit class in these prominent schools having enough and sufficient infrastructure of the blocks. The classes will be organised on 3 hour basis five days a week. As the selection of students will be based on merit from all the Govt. schools in the block, similarly the teacher's selection will also be purely on merit.

**Honorarium to Teachers**

The teachers will have to work extra time for the purpose. As such, a provision of honorarium has to made under the scheme. A provision of 10 percent of the Basic pay of the teacher should be the honorarium to be paid to the identified teacher.

**Medical and Non-Medical Stream**

The students will be taught basic subjects such as Physics, Chemistry, Mathematics, English, Biology, Commerce (two subjects) etc. so that they may become eligible for entrance tests for the various Engineering, Medical courses as also other competitive examinations. The number of students will be five times the number of seats available to the SC students in the Medical, Para Medical and Engineering Colleges in the State of Punjab.

**Competition at the State Level**

From Block level, the students will compete at the District level position. The First, Second and Third position holder in the Block and District level will also be awarded cash awards @ of Rs.2000, Rs.1000 and Rs.500 and Rs.3000, Rs.2000 and Rs.1000 respectively. Similarly, at the State level, the award amount for the students holding Ist, IInd & IIIrd position will be Rs.5000, Rs.3000

and Rs.2000. At the State level, the next 10 students in the order of merit will be awarded appreciation cash awards @ of Rs.1000 each.

#### **Provision of Funds for Magazines**

Since all the students (120 each from the Block) will compete among themselves, a provision of Rs.1000/- per school will be made for the purchase of weekly & monthly magazines concerning the competitive and general awareness fields. The concerned teacher will devise the selection of study material. The students will be prepared simultaneously for the Board exams as well as the entrance exams for the Medical and Engineering streams in the State.

#### **Competition/Excellence**

Such a scheme of merit classes for the Sc students in the State will not only promote confidence and competence among the students of the community but will also enable them to compete for the entrance exams with other general category students in the State on some sort of level-playing field.

#### **Financial Liability**

To implement the scheme, it would require to provide funds for Teacher's honorarium, material and Academic performance awards for the students. The scheme is proposed to be funded out of Special Central Assistance (SCA) funds of Govt. of India.
